PRODUCT OF THE USA

PEROXY HDOX

Multi-Purpose, Hydrogen Peroxide-Based
EPA Registered
Disinfectant / Sanitizer / Fungicide
Virucide / Deodorant / Cleaner

Peroxy HDOX is fueled by hydrogen peroxide. Because hydrogen peroxide is formed in nature, it has none of the problem VOCs or chemical residues that are associated with other ingredients in disinfectants.

Peroxy HDOX utilized COLOR-CODED dilution control and dispensing equipment to ensure proper dilution and application. Two formulations, Red Dilution (Heavy Cleaning) and Green Dilution (Light Cleaning) will replace up to 95% of your cleaning chemical needs.

When used as directed, HDOX is approved as effective by the EPA as a disinfectant / sanitizer / virucide / fungicide against *Pseudomonis Aerignosa*, *Staphylococcus Aureus*, *Salmonella Enterica*, *Streptococcus Pneumoniae*, *E-Coli*, *MRSA*, *CA-MRSA*, *Influenza Type A*, *RSV*, *HIV-1*, *Norovirus*, and more.

The Peroxy HDOX Solution

Non-toxic to Humans
Non-toxic to Aquatic Life
Non-carcinogenic
Non-corrosive
Non-combustible
Biodegradable

Inventory Reduction
